FILE HEADING.

Water Supplying scheme for the Taluk Cutcherry, Sri Anjaneyaswami temple at Hyavanahalli Hadagere Taluk.

FROM

The Mysore Commissioner in Mysore

No. 768/32-4 Dated 2.1.1934 Received 1.1934

Diary No. 741	Enclos	Spare copies	Serial No. 1.

BRIEF ABSTRACT OF LETTER

Recommends sanction to an estimate for Rs 13,260 for giving water supply connection at the above place, and to write the Resident's demand plant charges amounting to Rs 1260, the work being executed by the Sanitary Engineer.

NOTES AND ORDERS.

The scheme is estimated to cost Rs 13,260 and deducting therefrom Rs 1260 (Cost, tools and plant charges) the net cost will be Rs 12,000 and the M.C requests sanction for this latter amount, the charge being borne from the cash and invested balance of the temple in question.

The estimate is prepared by the Sanitary

By order

9/4/34

31/3/34 For Pl. Secretary

Returned with compliments.

The project as designed is fundamentally incorrect as the pumping plant and the distribution system are both based on the assumption that water would be drawn uniformly all the 24 hours, which will not be the case in practice. The period of draw-off in a day is limited at the utmost to about 8 hours in which period the full supply has to be given and the size of the rising main and distribu-

Serial No.

tion system have therefore to be so designed accordingly. The capacity of the proposed service tank (10,000½ gallons) is not adequate to meet the demand in the hours of the maximum draw-off in spite of continuous pumping.

16 Except in the case of electric power it is uneconomical to provide for continuous 24 hour pumping for small installations of the kind. One shift pumping has to be arranged to give full supply. The capacity of the pump will consequently have to be increased accordingly. The capacity of the infiltration duct has to be large enough to deliver the above maximum in the 8 hours limit referred to.

17 The Assistant Commissioner, Madhugiri, in his letter No.C.906/33 dated 27th November 1933 to the Deputy Commissioner, has stated that 30 000 to 40,000 people attend the Jatra. But the project, in question, provides for only 15,000 population. The correct figure has to be ascertained before revising the designs and estimates.

18 Till the water supply scheme for Holavanahalli village is taken up it would appear to be unnecessary to purchase the Engine and the elevated tank, as the Jatra continues for about 10 days in a year and the Engine and pump cannot be expected to be well-looked after during the rest of the year as experience at Karapur camp shows. It would be enough to build a service tank with a few taps all round and pump water into it by hiring a pumping set from the Department of Industries at the time of Jatra. If the Department

of Industries cannot spare them, the Department of Health may keep some one or two pumping units of steam or oil power and hire them to such Jatras at different places.

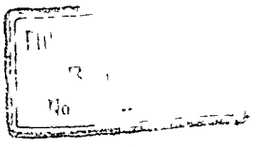
OFFICE OF THE MUZRAI COMMISSIONER IN MYSORE.

Dated, Bangalore, 27th December 1933.

No. 250-33-1 - 2/1/34.

FROM

N. Madhava Rau, Esq., B.A., B.L.,
~~SCHNIRLANNAIYA, ESQ.,~~
Muzrai Commissioner in Mysore.



To

S. Shamanna, Esq., B.A.,
Secretary to the Government of His Highness the Maharaja of Mysore.
Finance & Revenue Department.

SIR,

I have the honour to forward herewith for your sanction an estimate for Rs.16,200/- for paving over sanitary connections to the Jatra Grounds of the Sri Anjaneyaswamy temple at Kyamenahalli, Kortagere ~~Sub~~ Taluk prepared by the Sanitary Engineer, Bureau of Sanitary Engineering and received from the Tumkur District Deputy Commissioner's letter No. 1259/33-34 dated 22nd December 1933 (copy enclosed).

2. The necessity of this work in the interests of the project are explained in the forwarding letter of the Sanitary Engineer.

3. The Jatra at Kyamenahalli is also of some importance and it is essential that adequate facilities should be created for an adequate supply of good water with a view to prevent the ------ breaking out of cholera and other epidemics. The interest on the invested surplus of the institution by means of the scheme has to be financed will not materially affect the revenue as the annual revenue during the last five years is Rs.1750/- against an income of Rs.467/- only. I recommend therefore that the estimate may be sanctioned, the charge being met from the invested balance of the temple.

4. In view of the public utility of the project, I further recommend that as in the case of water supply to Ghati in the Doddaballapur Taluk, the establishment, tools and plant charges amounting to Rs.1260/- may be waived and the estimate sanctioned for Rs.12,000/-, the work being entrusted to the Sanitary Bureau for execution.

I have the honour to be,

Sir,

Your most obedient servant,

Muzrai Commissioner.

Letter No.F.1259/53-54 dated nil December 1953 from the Deputy Commissioner, Tumkur District to the Huzrat Commissioner in Mysore.

I have the honour to forward, herewith, for favour of your kind ---- sanction an estimate amounting to Rs.15,260/- for giving water supply connections to the jatra at Kyamenahalli obtained from the Bureau of Sanitary Engineering.

As narrated in detail in the communication of the Revenue Sub ----- Division Officer, Madhugiri, the supply of good water supply during the jatra is very essential as more than once cholera has spread from xxxxx Kyamenahalli to other places in the State.

A copy of the letter No.C.906-33 dated 27 th November 1933 is also enclosed for favour of perusal.

The estimate may kindly be caused to be sanctioned and returned -- early so that the work may be taken up on hand and completed before the Jatra begins.

The receipts of the temple are always in excess of the expenditure. It is reported by the Sub Division Officer that the funds at the credit of the institution are Rs.1,700/- in bonds, Rs.506 in cash and that the sale realisations of the current year amount to Rs.4000/- i.e., about 15,206/-. But there is no anxiety about the future as it has been found in experience that the realisations have always been in excess of the -- expenditure.

The resolution of the Dharmadarsis requesting approval to the presen estimate has been called for and will be submitted early.

tter No.C.766-6 dated 17-3-34 from the Director of Health with the Gover nt of Mysore, to the Muzrai Commissioner in Mysore.

With reference to your Memo No.768/33-34 dated 16th February 1934 forwarding the Financial Secretary's letter No.1066/Muz. dated 8th February 1934 calling for certain information in respect of Water Supply Scheme for the Jatra grounds of Sri Anjaneyaswami temple at Kyamenahalli, Koratagere Taluk, I have the honor to forward herewith copy of letter No.401 dated 15th March 1934 from the Sanitary Engineer with its following enclosures

1. Calculation sheet.
2. Sketch plan.

The enclosures received with your Memo under advertance are also returned enclosed.

"COPY"

For Muzrai Commissioner.

Letter No. 401 dated March 15, 1934 from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Director of Health in Mysore, Bangalore.

With reference to the letter No. 1066 dated 8th February 1934 from the Muzarai Commissioner to you regarding the water supply scheme to the Jatra at Kyamenahally, I have the honour to state that it is estimated that about 15000 people congregate during the Jatra at Kyamen hally and a provision of 5 gallons per head per day has been given in the estimate. A daily supply of 75000 gallons on an average is proposed to be given which seems to be quite enough. The 3" C.I.Pipe line is proposed for the rising main allowing the usual velocity of 3 ft. per second which could allow a discharge of about 3300 gallons per hour.

The calculations required are given in the enclosed sheet.

The maximum flood level etc., has been ascertained from the local officers of the Public Works Department and the same has been given in the longitudinal section already attached with the estimate.

A sketch showing the complete lay-out has also been enclosed as desired.

All the connected papers have been enclosed for further action.

" C O P Y "

Director of Health.
